

# ACES FOR AUTISM

## *Snoezelen Room*

Snoezelen Multi-Sensory Environments offer a relaxed atmosphere with pleasant surroundings, soothing sounds, captivating aromas, tactile experiences, massage and vibration, vibrosonic sensations, and gentle movement. Interesting light effects and comfortable seating allow your students to self regulate by choosing sensations. Further, the Snoezelen environment provides opportunities for interaction and engagement.

- **Relaxation**-used to calm and reduce agitation through the use of gentle light, soothing sound, relaxing smells and textures.
- **Development**-used as a learning and developmental tool, it can be used for color matching, understanding of cause and effect, and creating themed environments to teach in.
- **Stimulation**-used to stimulate users by providing exciting visuals, music and sounds, invigorating smells and textures to explore.
- **Therapy**-provides calming experience
